

nVent CADDY Adjustable Mud Ring Solutions

Our line of nVent CADDY Adjustable Mud Rings and Extension Rings provide a series of solutions for various in-wall projects. A powerful combination is created by combining mud rings—that accommodate various depths of drywall, and extension rings—that allow you to extend the working depth of a mud ring. Speed up and simplify installation while meeting code requirements for even the most difficult in-wall projects.

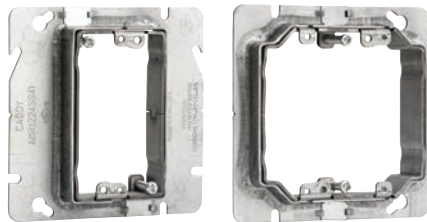

Adjustable Mud Ring

The nVent CADDY Adjustable Mud Ring accommodates various depths of drywall and can be adjusted after installation—providing maximum flexibility and ensuring confidence on the job. Contractors can meet code requirements with ease and provide a smooth finish flush to the wall when installing electrical boxes.

Features

- Accommodates various thicknesses of drywall
- Can be adjusted after the installation of drywall
