

Raystat-Control-10 Line Sensing

RAYCHEM

SPECIFICATION GUIDELINE - FROST PROTECTION FOR PIPES

CONTROL & MONITORING

- All self-regulating, frost protection, heat-tracing circuits shall be controlled and monitored with a line sensing thermostat, nVent RAYCHEM Raystat-Control-10, as manufactured by nVent

The controller must have the following functions:

- Adjustable hysteresis
- High and low temperature alarm function
- Digital display
- Capacity for "Off-site" programming without external power supply
- 25 amp switching capacity rating
- Sensor failure alarm
- Voltage failure alarm
- Selectable fail safe mode, either ON or OFF
- Alarm relay for remote BMS monitoring
- System error codes for quick diagnostic of system failure
